## FRONT END DEVELOPER

I Passionate Frontend Developer specialized in React and TypeScript, with solid knowledge of JavaScript, HTML, and CSS. Experienced in using Firebase for authentication and backend services. Developed a fully functional e-commerce application, focusing on reusable components, clean code, and responsive design. Eager to join a team where I can enhance my skills and deliver high-quality user interfaces

---

## SKILLS

Reactjs  
Typescript  
Javascript / ES6

Redux toolkit  
Tailwindcss  
HTML5 / CSS3

Git / Github  
Problem solving  
Team work

---

## PROFESSIONAL EXPERIENCE

### CIS TEAM MU

October 2025- Present

#### Front-end Supervisor

Acted as a Frontend Supervisor in CIS Team at MU, mentoring junior members, organizing frontend tasks, and overseeing project implementation.

Contributed to building real projects, reviewing pull requests, and ensuring responsive and user-friendly UI development

### Digital Egypt Pioneers Initiative - DEPI

December2025 - Present

#### Front-end trainee

Participated as a Frontend Development Trainee in DEPI, where I learned and applied core frontend concepts including HTML, CSS, JavaScript, React, and TypeScript.

Worked on practical assignments and mini-projects to strengthen problem-solving and UI development skills.

---

## EDUCATION

### Faculty of computer science and information systems

Student in Third year at IT departement.
